Clinical Displays

**DICOM Part 14
Compliant**

IEC 60601-1 Certified

**Resistive or PCAP
Touch Display**

Medical Displays Critical to Accurate Diagnosis

When it comes to patient diagnosis, the quality and performance of the display is critical to ensuring accurate interpretation. Contec's new clinical display line of medical-grade monitors offers stringent image quality and safety standards for a clinical setting. These versatile displays are designed for medical equipment manufacturers who are looking for long life solutions suited for a wide variety of hospital and laboratory applications.

Our **LEGACY** line provides investment protection for existing equipment requiring a 4:3 aspect ratio.

Our **MODERN** line boasts a sleek, contemporary look and offers a wide range of features compatible with most current systems.
